EDUCATION

University of Utah, College of Engineering
Honors Bachelor of Science in Computer Science

Salt Lake City, Utah
Aug 2023 - May 2027

EXPERIENCE

Vektara Ventures

Chief Commercial Officer

Remote

June 2025 - Present

- Lead a team of 6 while engineering **scalable GTM automation pipelines** using **Python** and **REST APIs** for B2B SaaS platform; automated lead generation reducing manual prospecting by 70%.
- Built **lead scoring and CRM data enrichment** system integrating Hunter.io, Clearbit APIs; improved lead qualification accuracy by 85%.
- Architected **sales funnel analytics and KPI dashboards** tracking conversion metrics and pipeline performance.

University of Utah - IT Services

Platform Engineering Intern

Salt Lake City, Utah

Jun 2025 - Present

- Architected enterprise **ServiceNow workflows** using **JavaScript**, **SQL**, and **REST APIs** serving 45,000+ users; reduced ticket resolution time by 35%.
- Developed **automated workflow engines** integrating ServiceNow with enterprise systems; streamlined provisioning reducing manual tasks by 60%.
- Implemented **ITIL best practices** and service catalog solutions resulting in 40% improvement in first-call resolution rates.

University of Utah - Housing and Residential Education

Developer and Housing Ambassador

Salt Lake City, Utah

Jun 2024 - Jun 2025

- Developed automated email response system using **Python** and web scraping reducing inquiries by 40%.
- Built **RESTful APIs** integrating FAQ data from university systems improving response accuracy and streamlining support workflows.
- Designed and maintained **database schemas** and **data integration pipelines** for student housing information management systems.
- Collaborated with **cross-functional teams** to optimize user experience and implement **automated solutions** for resident services.

PROJECTS

FactFlow *Python, Flask, Chrome Extension, NLP* · Developed ML pipeline using TF-IDF and PassiveAggressiveClassifier with browser integration

My2KAssistant *Python, Flask, React, SQLite* · Built full-stack sports analytics app with NBA API integration and data visualization

Spotify-Analysis *R, TidyVerse, Data Visualization* · Engineered data analysis pipeline comparing Spotify track features and music trends

Punjabi Arts Academy Website *HTML, CSS, JavaScript, SQL* · Dynamic webpage with Stripe payment integration and user management

SKILLS

Languages: Python, JavaScript, Java, SQL, HTML5, CSS, R,C++,C#,Typescript, Assembly
Frameworks: Flask, React, Node.js/Express, RESTful APIs, Chrome Extensions
Databases: MongoDB, SQLite, MySQL, Database Design, Data Integration
Tools: Git, Docker, AWS, ServiceNow, Selenium, Gmail API, GitHub Actions, Bash, Docker, Ubuntu,
GTM/Sales: Lead Generation, CRM Management, Sales Automation, Web Scraping, Pipeline Analytics, B2B SaaS, Campaign Management, Data Enrichment
AI/ML: NLP, Machine Learning, Data Pipelines, Predictive Analytics, OCR

ACTIVITIES & COURSEWORK

Management and Consulting Club, University of Utah · Active member participating in case competitions and business strategy workshops

Coursework: Data Structures & Algorithms, Computer Organization, Discrete Mathematics, Software Organization, Computer Security,
